Adverting to correspondence ending with your D.O. letter No.[illegible] dated the 30th October 1924, I am directed to state that in referring in my letter to the incompatibility of His Highness as the Ruler of the State having to pay for special trains run within the limits of the State, the main object was to point out that the prestige and dignity of His Highness in this respect had to be maintained.

2) Though at the time the general question of the incidence of charges of His Highness' tours was considered 18 years ago, it was thought that the settlement come to, in accordance with which the cost of Provincial tours which His Highness views in the light of duty that he owes to the people was to be debited to the Civil List was suitable, it is apparent that owing to altered conditions it now requires some modification. As pointed out in Mr.Maconochie's letter, it is unnecessary to draw a distinction generally between tours undertaken solely with a view to the discharge of public duty and others and it is impossible to draw a line of demarcation between one kind of tour and another. On Saturday last, when I consulted you in the matter, you expressed it as your opinion that the reasons adduced in Mr.Maconochie's letter for differentiating tours within the State from those outside the State are not convincing, that the modification of the existing rules only in regard to the running of the Special Trains will be a partial solution of the question and that once for all the distinction may be done away with, the rule applicable to tours outside the State being extended to tours within the State also.

3) His Highness to whom I submitted your views, considers that, for the present, it will be sufficient if the rule relating to tours within the State is modified so that the cost of running special trains and Saloons, dining cars or trucks for the conveyance of His Highness' Motor Cars attached to the Passenger or other trains may be borne by the State and will be glad if you will kindly issue necessary orders in the matter.
